

# FFP-Mounting

## type 20-FFP-6

Max. 4000 kg - 8 mm - 5.5 Hz

**FFP-type** Flexible Fixed Points are used to support both vertical pipe sections and exhaust silencers. They are fitted with a thermal insulating plate for heat protection and feature protection against complete loss of support in the event of mechanical or fire damage. Customers are recommended to contact our application engineers for further technical information on products and applications.

Applications: supporting and stabilizing pipe sections and exhaust systems.
