

Hanger Element

type 20-TV-40-A

Max. 40 kg - 20 mm - 3.5 Hz

TV-type Hanger-Elements are fitted with a spring element and a rubber 'acoustic stopper'. These 'low frequency' hanger elements are very suitable for suspension of rotating equipment and piping work. The static deflection ranges from 2 to 20 mm. and features protection against complete loss of support in the event of mechanical or fire damage. Customers are recommended to contact our application engineers for further technical information on products and applications.

Applications: hanger-elements for piping, acoustic ceilings, fans, air-conditioning units, sensitive equipment, etc.
